

Micron Global Women's Mentorship Program

As a world leader in memory and storage solutions, Micron Technology lives its vision of transforming how the world uses information to enrich life *for all*. With our unwavering commitment to people, communities, and society, we are offering female students all over the world an opportunity to be mentored by Micron global female Leaders.

What is the Micron Global Women's Mentorship Program?

The program will run in February – April 2022. Through a series of weekly mentorship sessions, participants in the Program will learn about the professional world, acquire new skills, find their voice, and get help in launching successful careers.

Who can participate?

The program is open to all female students pursuing an undergraduate or graduate degree in Electrical/ Electronics Engineering, Computer Engineering, Data Science, Artificial Intelligence / Machine Learning, Mathematics/Statistics, or Materials Science and graduating in 2023 or 2024. Because of the global nature of this program, all participants are expected to be proficient in the English language.
