Micron

Micron Campus Ambassador Program

As a world leader in memory and storage solutions, Micron Technology lives its vision of transforming how the world uses information to enrich life for all. With our unwavering commitment to people, communities, and society, we are offering students a three-month program, rewarded with a scholarship, to partner with Micron and act as a liaison between Micron and their universities.

What is the Micron Campus Ambassador Program?

Through three planned activities, the campus ambassador will work closely with local Micron team to bring awareness about Micron and help Micron to better understand the campus' culture. It's an opportunity to learn about the professional world, activities, acquire new skills and launch new projects for successful careers. The program will run in March – May 2022

Who can participate?

The program is open to all students pursuing a graduate degree in Electrical/ Electronics Engineering, Computer Engineering, Data Science, Artificial Intelligence / Machine Learning, Mathematics/Statistics, or Materials Science and graduating in 2023. Because of the global nature of this program, all participants are expected to be proficient in the English language

How to apply for Micron Campus Ambassador Program?

Write a one-page essay where you explain:

- Why do you want to become a Micron Campus Ambassador
- What are the Top 3 things you know about Micron
- The student activities or organizations you are currently involved with in your college
- Two innovative activities you would do as a Micron Campus Ambassador in your college
